LT2 RFP: Joint Session IESO, MECP and MNRF

Feedback Provided by:

Name: Lukas Deeg

Title: Director, Regulatory and Environmental Policy

Organization: Capital Power

Date: February 22, 2024

To promote transparency, feedback submitted will be posted on the LT RFP engagement webpage unless otherwise requested by the sender. If you wish to provide confidential feedback, please mark as "Confidential".

Following the February 9, 2024, engagement webinar, the Independent Electricity System Operator (IESO) is seeking feedback from stakeholders on the items discussed. The webinar presentation and recording can be accessed from the [LT RFP engagement web page](#).

Please submit feedback to engagement@ieso.ca by February 23, 2024.

Item	Feedback
<p>Please provide any general feedback to the IESO on what considerations need to be reflected in the LT2 Report Back on the procurement timelines and design to ensure efficient alignment with the proposed MNRF and MECP processes.</p>	<p>Capital Power would like to thank the IESO, MECP and MNRF for taking the time to present LT-2 and their respective permitting processes. LT-2 timelines are aggressive and will require timely approvals if projects are going to be in service by 2030. To meet these timelines, proponents will need to have comfort that LT-2 projects will be treated as priority within each respective agency, agencies will follow process and permitting timelines communicated within technical or guidance documents, and elevated stakeholder concerns will be resolved in a timely manner.</p>
<p>Please provide what additional details are needed to inform project siting, development, and timelines to ensure projects are in-service by 2030.</p>	<p>No comments at this time.</p>
