Subject: IESO LT2 RFP Update

Good afternoon,

Thank you for your interest in the IESO's Long-Term 2 Request for Proposals (LT2 RFP). You are receiving this email as a participant in the IESO's long-term procurements or as an attendee in an LT2 RFP related engagement webinar.

As a reminder, the IESO is hosting its next public engagement webinar on **April 4th at 9:00 a.m.** Visit the [LT2 RFP engagement webpage](#) for more information and to [register](#).

To better prepare stakeholders and communities for next week's discussion, below are a couple of key updates regarding the LT2 RFP.

1. **Enhanced Power Purchase Agreement (E-PPA):** An update regarding the E-PPA [link] for the LT2 RFP is available for awareness and provides further details on the changes made to the E-PPA design. This update follows the communication issued by the IESO on March 19, and the opportunity to discuss the E-PPA design details will be made available during the upcoming webinar.
2. **Connection Guidance Document:** The IESO previously committed to issuing connection guidance for the LT2 RFP by the end of March. The guidance document is near final and will be available in early April. Stakeholders and communities will be notified once this document has been posted and will have the opportunity to engage with the IESO through a webinar forum to address questions and comments. Stay tuned for this date.

The IESO looks forward to connecting during the April 4th webinar and welcomes any questions related to the content mentioned above. Please reach out to engagement@ieso.ca with any questions.

Regards,

IESO Engagement
