Long-Term 2 RFP – December 12, 2024

Feedback Provided by:

Name: Eric Muller

Title: Director, Ontario

Organization: Canadian Renewable Energy Association (CanREA)

Email: [REDACTED]

Date: January 10, 2025

Following the LT2 RFP December 12, 2024, engagement webinar, the Independent Electricity System Operator (IESO) is seeking feedback from stakeholders on the items discussed. The presentation and recording can be accessed from the [LT RFP engagement web page](#).

To promote transparency, feedback submitted will be posted on the Long-Term RFP engagement page unless otherwise requested by the sender. If you wish to provide confidential feedback, please mark "Yes" below:

- Yes – there is confidential information, do not post**
- No – comfortable to publish to the IESO web page**

Please submit feedback to engagement@ieso.ca by January 10, 2024.

Overview of directive and LT2 updates

Question	Feedback
<ul style="list-style-type: none"> Do you have any comments for the IESO regarding the proposed targets for the first submission window and/or the range of targets proposed for future windows? 	<p>For the LT2 Window 1 Energy target, CanREA submits that the IESO should consider procuring more energy than the 3 TWh currently proposed. CanREA acknowledges that IESO may exceed targets at its discretion where projects are considered cost-effective per IESO methodology.</p>
<ul style="list-style-type: none"> Do you have any comments for the IESO to consider regarding the proposed timeline for the first submission window? 	<p>For the LT2 Energy proposed timeline for the first submission window, CanREA recommends that the proposal submission deadline be amended to November 2025. This would help to ensure adequate time for meaningful engagement and partnerships with Indigenous communities and municipalities, generate a greater number of high-quality project proposals, and result in lowest-cost outcomes for ratepayers. CanREA notes that most municipalities take a summer recess during the months of July and August, providing limited time to secure municipal support before the end of June 2025. Should the IESO amend the LT2(e) window 1 proposal submission deadline to November 2025, CanREA submits that this would not impact proponents' ability to meet the IESO's outlined commercial operation dates.</p>

LT2 (c) – High Level Overview of RFP and Contract

Question	Feedback
<ul style="list-style-type: none"> Do you have any comments for the IESO regarding the newly proposed rated criteria related to duration? 	<p>CanREA recommends that the minimum duration for capacity resources be amended to four (4) consecutive hours and that rated criteria points be awarded to proposals that include duration capabilities of eight (8) consecutive hours or more.</p>

LT2(e) and LT2(c) RFPs and Contracts

Question	Feedback
<ul style="list-style-type: none"> Do you have any comments related to the treatment of support confirmations across windows? 	
<ul style="list-style-type: none"> Do you have any comments related to the proposed new requirement for evidencing that a project is on Unincorporated Territory? 	
<ul style="list-style-type: none"> Do you have any comments regarding the proposed early COD multiplier? 	

Deliverability Guidance

Question	Feedback
Do you have any comments around the Deliverability for Windowed Approach?	
Do you have any general comments you would like to share around the deliverability guidance or test methodology information presented for window 1?	CanREA and its members eagerly await the IESO's updated connection guidance v3.0 as described on slide 50 as soon as possible. This will provide the sector with the most up-to-date, accurate information available to inform investment decisions.

General Comments/Feedback

LT2 Energy RFP Window 1 Finalization and Launch

CanREA strongly recommends that the IESO aim to finalize all RFP documents and launch LT2(e) window 1 by the end of February 2025. This would provide proponents, Indigenous communities, municipalities and other stakeholders with the final rules and documents required to proceed with development activities. Finalizing and issuing the LT2(e) w1 RFP by the end of February 2025 along with CanREA's proposed submission deadline of November 2025 would ensure adequate time for meaningful engagement and partnerships with Indigenous communities and municipalities, resulting in a greater number of high-quality project proposals and lowest-cost outcomes for ratepayers. CanREA notes that most municipalities take a summer recess during the months of July and August, providing limited time to secure municipal support before the end of June 2025.

Ministry of Natural Resources Related Policies and Processes

Applicant of Record (AOR) – CanREA is seeking clarity on how long legacy AORs will be considered valid under the new LT2 RFP windowed approach.

Crown Land Site Report (CLSR) – CanREA members are urgently seeking more details on the CLSR, required for development on Crown Land, well in advance of LT2(e) w1 RFP finalization.
