Subject: Expedited, LT1 and Upgrades procurements Q&A webinars

Hello,

The following documents are now available on the [Long-Term RFP webpage](#):

- Draft Expedited Process Request for Proposals (E-LT1 RFP)
- Draft Expedited Process Contract (E-LT1 Contract)
- A document summarizing the differences between the Expedited Process RFP and Contract and the future LT1 RFP and LT1 Contract

The IESO will be accepting written feedback on the draft E-LT1 RFP and draft E-LT1 Contract at LT.RFP@ieso.ca by September 30, 2022.

The IESO is hosting Q&A webinars on September 15th to discuss the posted documents and answer any questions stakeholders may have at this time. A morning meeting will be dedicated to discussing the Expedited Process, and the afternoon session will focus on the Same Technology Upgrades procurement. Interested parties are encouraged to visit the [LT RFP engagement page](#) to register for the session(s). If required, IESO will host a second Q&A webinar on September 21st from 9am-noon (please consider this an FYI for now, with further information and registration to come if the second webinar is deemed necessary).

If there are any topics you would like the IESO to touch upon in the September 15th Q&A sessions, please send them via email to engagement@ieso.ca before September 2nd and we'll do our best to address them in the sessions. The IESO will have its legal counsel attend the webinar to answer any specific questions as they pertain to the posted documents and procurement process.

Regards,
IESO Engagement

+++This is being sent to past participants of Long-Term RFP and Resource Adequacy sessions
