RE: Feedback on the LT1 RFP Deliverability Test Submission Timeline

To whom it may concern,

SWEB Development LP (SWEB), Qualified Applicant ID LT1RFQ-036, is submitting this written feedback to the IESO in regard to the concerns over the deliverability test submission timeline for the LT1 RFP. SWEB would first like to acknowledge the effort the IESO team has put into the RFP process to date and commends the IESO on its engagement with the public and Qualified Applicants.

SWEB recommends that the IESO delay the deliverability test submission timeline for the LT1 RFP until after the projects have been awarded in the E-LT1 process. This will help Qualified Applicants better align their projects with the grid's remaining needs and will reduce unnecessary additional testing to be completed by the IESO.

It would be appreciated if the IESO could please prioritize feedback on this topic given the upcoming holiday season and complexity completing such tasks involving multiple parties.

If there are any questions, please do not hesitate to contact Sarah Rosenblat at [REDACTED] or via email at [REDACTED].

Sincerely,

A handwritten signature in blue ink that reads 'S. Rosenblat'.

Sarah Rosenblat
