- Phone: 289-200-6927
- Email: rob@energyontario.ca

The IESO is posting a series of detailed design documents which together comprise the detailed design of the MRP energy stream.

This design document is posted to the following engagement webpage: <http://ieso.ca/en/Market-Renewal/Energy-Stream-Designs/Detailed-Design>.

Stakeholder feedback for this design document is due on July 24, 2020 to engagement@ieso.ca.

Please let us know if you have any questions.

IESO Engagement

General feedback on the Detailed Design Document

Ontario Energy Association recognizes the effort IESO staff and participants have put into the development of the detailed design documents and appreciates the opportunity to provide feedback on this important program.

When will the IESO communicate whether a separate dispute resolution mechanism will be established to address mitigation disputes? What types or forms of dispute resolution mechanisms is the IESO currently considering to address mitigation disputes?

In general the Market Power Mitigation processes appear appropriate though the process to develop reference levels will ultimately determine the effectiveness of the process and efficiency of market outcomes.
