Subject: Re: Webinar May 29 - Presentation Posted - Ottawa Regional Electricity Planning

Dear IESO Officers:

I am glad to join the webinar today.

One question is regarding:

Renewable Generation Integration Fund (RGIF) for demonstration project.

As we understand that the Virtual Net-metering is not available at moment. But hope the normal net-metering by renewable generation are encouraged if another webinar can be dedicated to RGIF program and link with Regional Electricity Planning program webinar.

Thank you for attention.
