**Subject:** Updates to IESO Monitoring Requirements – Engagement update

Thank you for submitting feedback following the November 19 engagement webinar on Updates to IESO Monitoring Requirements. The response to feedback is posted on the [Updates to IESO Monitoring Requirements webpage](#).

Recognizing the need for a staged implementation plan and further discussions with stakeholders, the targeted implementation timing of the updated requirements has been revised. The updated schedule is reflected in the Engagement Plan, which is also posted to the [Updates to IESO Monitoring Requirements webpage](#).

The IESO will be in touch with stakeholders once timing of the next engagement meeting is confirmed. If you have any questions in the meantime, or would like to set up a discussion, please be in touch.

Regards,  
IESO Engagement
