Subject: Feedback - Updates to IESO Monitoring Requirements

Good Friday afternoon IESO:

I appreciate the presentations and I am learning from what I have received, and I still have a lot to learn. Some day when I am with someone who is well experienced with the Synchrophasor Data, I will learn much more. The power used and distributed per minute needs to be controlled and recorded for accuracy of electrical distribution to the power users.

I believe the presenters did a great job with their presentation and I thank them very much.

All the best,

Garry
