Resource Adequacy – October 21, 2021

Feedback Provided by:

Name: Dominic Lemieux

Title: General Manager, Ontario Operations

Organization: Atlantic Power

Email: [REDACTED]

Date: November 12, 2021

To promote transparency, feedback submitted will be posted on the Resource Adequacy webpage unless otherwise requested by the sender.

Following the October 21, 2021 Resource Adequacy webinar, the Independent Electricity System Operator (IESO) is seeking feedback from stakeholders on the following discussed items including the Capacity Auction, Medium and Long Term RFP. Background information related to these feedback requests can be found in the presentation, which can be accessed from the [engagement web page](#).

Please submit feedback to engagement@ieso.ca by November 12, 2021. If you wish to provide confidential feedback, please mark the document "Confidential". Otherwise, to promote transparency, feedback that is not marked "Confidential" will be posted on the engagement webpage.

Capacity Auction

Medium Term RFP

Topic	Feedback
Feedback on the draft schedule	Atlantic Power supports the draft schedule as ambitious but achievable.
Feedback on the extension to the commitment term	Atlantic appreciates the IESO's recognition of the need for a longer-term commitment in specific cases. The 3+2 year approach is a reasonable compromise that recognizes the IESO's preference for commitments to expire in 2029 to align with the next MT RFP while offering an extended term option for those resources that require it for commercial reasons. Another option the IESO might also want to consider is to allow generators that are able to do so to commence the commitment period upon the expiration of their existing contract. Allowing this option (that may be up to a 2+3 year commitment) would reduce uncertainty for generators in the interim period while still meeting the IESO's objectives of expanded participation and competition in the next MT RFP at the end of the decade.
