**Subject:** Update on Capacity Auction Market Rules

The following is an update for those participating in the Capacity Auction engagement initiative.

At its June 23 meeting, the IESO Board of Directors reviewed the market rule amendment proposal (MR-00469-R00), Enhancements to the 2022 Capacity Auction. The Board has asked the IESO to bring a revised market rule amendment proposal to the Technical Panel that would focus on enabling participation from generator-backed capacity import resources. The proposed enhancements related to capacity qualifications as well as performance assessment modifications will be discussed at future engagement sessions on design enhancements to the IESO's Capacity Auction.

As a result, the IESO will bring a revised market rule amendment proposal to the July 12 Technical Panel meeting that if approved, would be effective for the 2022 Capacity Auction.

Please let us know if you have any questions.

Thank you,  
IESO Engagement
