Following the April 22, 2025 engagement webinar, the Independent Electricity System Operator (IESO) is seeking feedback from stakeholders on Transmitter Selection Framework Registry (TSF-R) Design. The webinar presentation and recording can be accessed from the [engagement web page](#).

Please submit feedback to engagement@ieso.ca by **May 13, 2025.** If you wish to provide confidential feedback, please submit as a separate document, marked "Confidential". Otherwise, to promote transparency, feedback that is not marked "Confidential" will be posted on the engagement webpage.

In your view, do the draft Registry program rules appropriately balance the need for transmitter qualifications with the goal of encouraging broad participation?	We support the changes made to the qualification requirements.
Do you have any concerns with the application or renewal process as proposed (e.g., two-year term, renewal triggers, documentation)?	In our experience the renewal process is more than 2 years in other jurisdictions. We would support a 4 year term till renewal.
Are the proposed provisions regarding Indigenous community participation and exclusivity arrangements sufficiently clear and practical to implement?	We are not concerned with this approach at this time.
Are there any outstanding barriers which could interfere with transmitters participating within the TSF registry?	We would appreciate clarity on whether a credit rating is a requirement, this would restrict any private companies from participating.
Do you have any additional feedback regarding the TSF of the TSF Registry that the IESO should consider?	Not at this time.
Do you have any feedback on the TSF Registry registration fee and the rationale behind it?	Yes, we support a fee that is aligned with the OEB process and does not result in multiple fees to become an Ontario transmitter.
