

# Feedback Form

## Toronto Third Line – April 9, 2026

### Feedback Provided by:

Name: George Lau

Title: Supervisor, Market Affairs & Development

Organization: Ontario Power Generation

Email: [REDACTED]

Date: April 20, 2026

To promote transparency, feedback submitted will be posted on the Toronto Third Line engagement page unless otherwise requested by the sender.

- Yes – there is confidential information, do not post**
- No – comfortable to publish to the IESO web page**

Following the Toronto Third Line April 9, 2026, engagement webinar, the Independent Electricity System Operator (IESO) is seeking feedback from stakeholders on the items discussed. The presentation and recording can be accessed from the [Toronto Third Line engagement webpage](#).

**Note:** The IESO will accept additional materials where it may be required to support your rationale provided below. When sending additional materials please indicate if they are confidential.

**Please submit feedback to [engagement@ieso.ca](mailto:engagement@ieso.ca) by April 23, 2026.**

## Question

How should the IESO structure its experience requirements for HVDC, underwater and Indigenous engagement/consultation experience? How should the IESO define a qualifying project?

## Question

What feedback do you have on the proposed division of costs between those that should be eligible for risk-sharing and those that should be ineligible?

## Question

Are all major activities appropriately captured and is the level of detail sufficient? Should any categories be further subdivided – for example, should 'Construction' be broken out into site remediation, cable placement, and other specific activities?

## Question

What feedback do you have on the proposed cost-containment and risk-sharing mechanisms? Are there additional mechanisms we should consider? Which mechanisms should apply to which Capital Cost Components?

## Question

Does the draft high-level term sheet capture the key commercial terms and concepts to enable your organization/community to have a high-level understanding of the structure of the TTL procurement contract?

## General Comments/Feedback

OPG would like to note that, as the owner of lands near the Hearn and Bowmanville transmission stations, we would welcome opportunities to work with the IESO and transmission developers on the potential siting of transmission infrastructure. OPG would appreciate any additional clarity on how land requirements are being considered in the context of this RFP.

OPG thanks the IESO for the opportunity to provide feedback on the Toronto Third Line engagement, and looks forward to working closely with the IESO on this and future engagements.
