
Connectivity Testing: Outage Coordination and Scheduling System (OCSS) CROW User Interface (UI)

January 19, 2024

Preface	2
TC01 - Access CROW UI through Application URL	3
TC02 - Access CROW UI through IESO's Gateway	6
Additional Resources	8

Preface

This document outlines the test cases to be executed as part of the connectivity testing phase for the applications impacted by the Market Renewal Program (MRP). In this phase of testing, the primary objective is to assess and validate the connectivity components of the systems. Comprehensive functional testing phases will be scheduled for a future date and is not in scope of this test.

Please ensure any anomalies, disruptions, or irregularities discovered while performing the connectivity testing are documented in the qTest or Issue Log Template. This will contribute significantly to the overall improvement of the IESO tools.

Precondition:

- 1. Access to <https://gateway-sbx.ieso.ca/>**
- 2. Access to the IESO's OCSS Sandbox environment.**

TC01 - Access CROW UI through Application URL

Step User Instruction

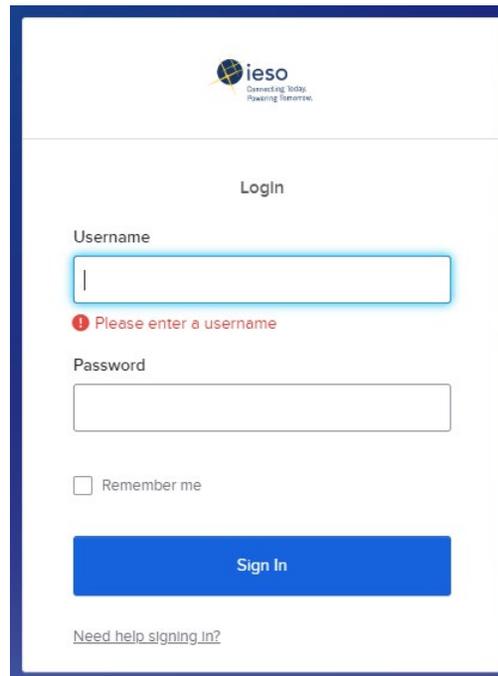

Expected Result

1. Navigate to the CROW Sandbox URL using Microsoft Edge browser:
<https://outages-sbx.ieso.ca/>.

Login using the same credentials used to authenticate

<https://gateway-sbx.ieso.ca/>.

An authentication page should load where the user can enter their login credentials.

Step User Instruction

Expected Result

- Following a successful login, ensure the webpage is directed to the CROW web application.

Following the login, the CROW user interface should be loaded.

The screenshot displays the CROW user interface for the Outage Request Index. The page features a navigation bar with 'ieso' and 'CROW' logos, and menu items for 'Reports', 'Outage Requests', 'Options', 'Logout', and 'CROW Sandbox'. The main content area includes a search and filter section with the following fields:

- Request Date: 2023/09/03 00:00 to 2024/01/02 00:00
- Request Status: Submitted
- Constraint: All
- Request Priority: All
- Control Centre: [Dropdown]
- Voltage Class: is between [Dropdown] and [Dropdown] kV
- Outage Number: 1

Below the search section, there is a table titled 'Outage Requests appearing in Dark Violet are overdue.' The table has the following columns: Has Conflict, IESO ID/Rev. #/Status, Planned Start, Planned End, Priority, Purpose Code, Purpose Description, Request Weekly AA, FAA Flag, and Equipment Label. The table contains one row of data:

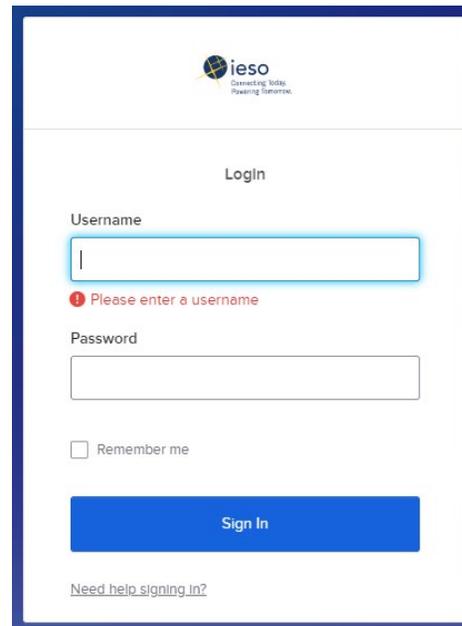

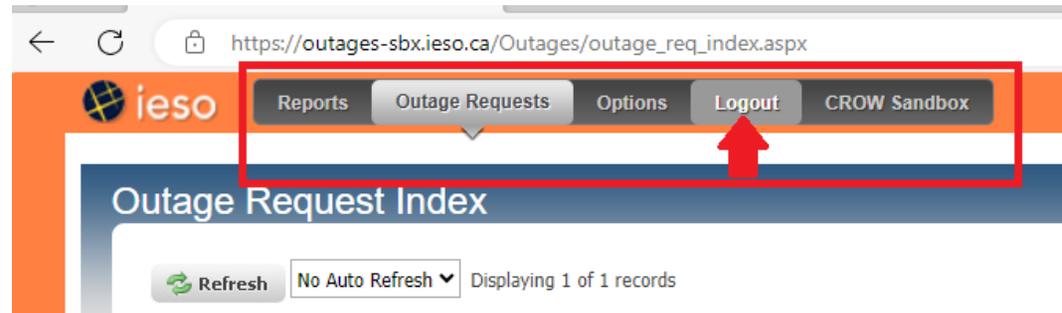

Has Conflict	IESO ID/Rev. #/Status	Planned Start	Planned End	Priority	Purpose Code	Purpose Description	Request Weekly AA	FAA Flag	Equipment Label
(All)	(All)	(All)	(All)	(All)	(All)	(All)	(All)	(All)	(All)

Step User Instruction

Expected Result

- 3 Logout of the CROW web application by clicking **Logout** beside the username in the top right corner.

After clicking **Logout** as shown below, the page will be redirected to the Gateway login page:

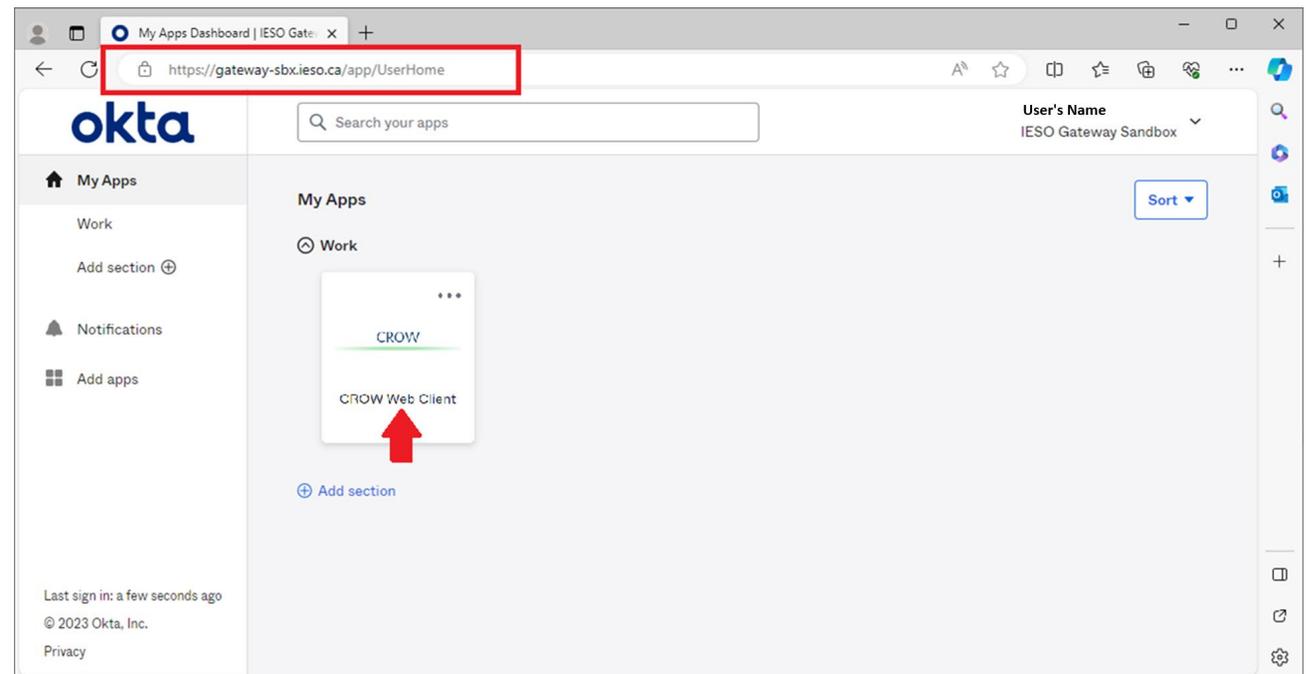

TC02 - Access CROW UI through IESO's Gateway

Step User Instruction

Expected Result

- 1 Navigate to the IESO's Gateway (Sandbox) webpage using Microsoft Edge browser: <https://gateway-sbx.ieso.ca/> and find the **CROW Web Client** tile under **My Apps**.

The **CROW Web Client** tile should be available on the webpage.

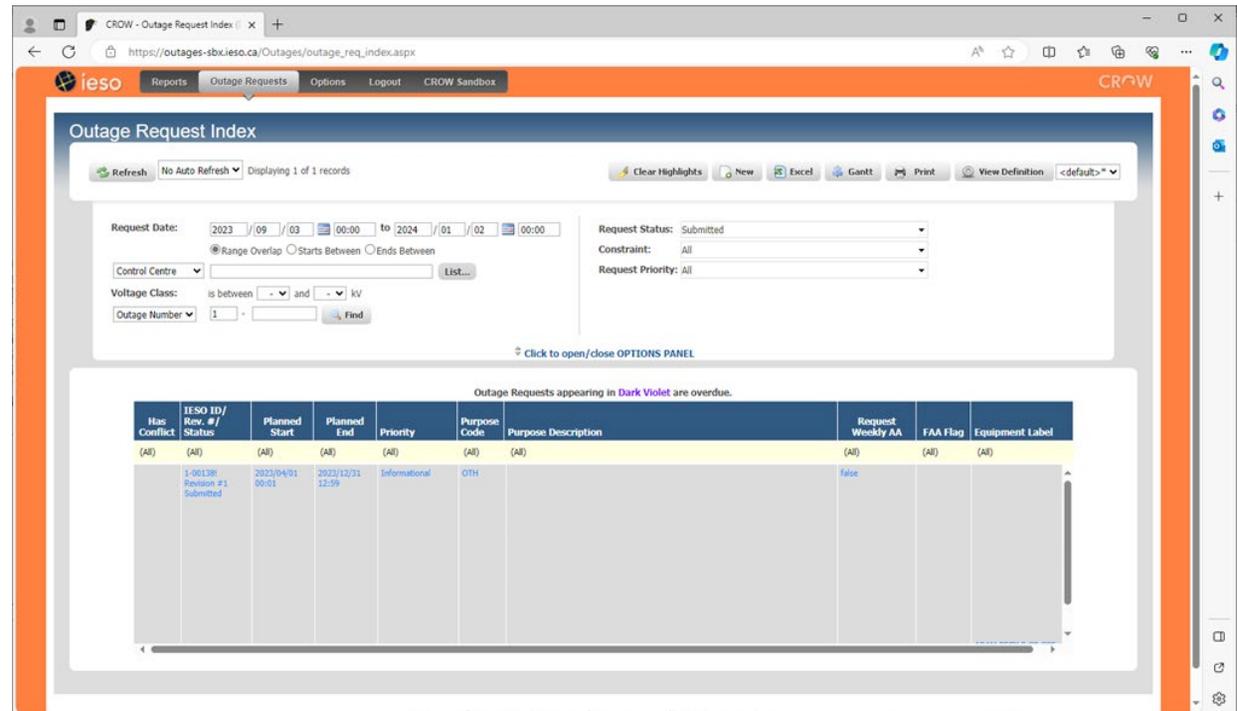

Step User Instruction

Expected Result

- Click on the CROW Web Client tile.

A new window or tab should open with the CROW user interface.
