

Ontario Enforcement Dates for TPL-007 Versions 3 and 4 GMD Planning Standard (Canadian Variance) Implementation Plan

The TPL-007-4 compliance dates for Requirements R1, R2, R5 and R9 will supersede TPL-007-3 in Ontario. All other phased-in compliance dates are carried forward unchanged.

The implementation of these requirements have been deferred to allow the use of an Ontario specific Benchmark GMD Event and Supplemental Benchmark GMD Event, which is currently being developed with the assistance with NRCan.
