Good afternoon,

You are invited to register for a webinar on **Wednesday, December 9 from 10:00 a.m. to 11:30 a.m.** to learn more about the Hamilton Addendum and the work underway to address identified electricity system needs in the Hamilton area. The Hamilton Addendum is evaluating potential solutions to address emerging electricity needs and support future growth and economic development in the region. The purpose of this webinar is to provide an overview of the Options Analysis findings and present the Draft Recommendations.

Connecting the IESO's work to communities and stakeholders is a critical component of electricity planning. The IESO encourages broad participation in the process, including but not limited to Indigenous communities, market participants, municipalities, customers, businesses, community organizations, and members of the public.

Registration is also available through the Hamilton Addendum webpage. Presentation materials and the feedback form will be shared ahead of the webinar to give participants time to review the information in advance. Written feedback will be accepted until **January 8, 2027**, and can be submitted via the feedback form and sent to **engagement@ieso.ca**.

Visit the Hamilton Addendum Engagement Page to learn more about the project and access engagement materials: You can also learn more about the regional electricity planning process by visiting our Regional Planning Overview webpage.
