Subject: Final Planning Documents Posted for Burlington to Nanticoke Region

The final Burlington to Nanticoke Scoping Assessment Outcome Report is now [posted](#) following a two-week comment period.

The report details the need for a coordinated regional planning approach and development of an electricity plan – Integrated Regional Resource Plan (IRRP) – for each of the Hamilton, Brant and Caledonia-Norfolk sub-regions.

Engagement will continue throughout the development of each of these plans with more details to follow. The [engagement webpage](#) continues to be a source of ongoing information related to these regional electricity planning activities, including any upcoming engagement opportunities. The IESO looks forward to further engagement with communities and stakeholders on this electricity planning initiative.

For more information about the regional electricity planning process, please visit <http://www.ieso.ca/en/get-involved/regional-planning/about-regional-planning/how-the-process-works>

To stay informed about electricity planning in Burlington to Nanticoke, please [subscribe](#) for updates. To be part of a broader discussion on electricity matters and priorities in Southwest Ontario, [join](#) the IESO's Southwest Regional Electricity Network.
