Subject: IESO Webinar | East Lake Superior Regional Electricity Planning
Date: November 26, 2025 10:35:55 AM

Regional electricity planning continues to advance for the East Lake Superior region to ensure a reliable supply of electricity and support local growth and economic development. This region extends from the Township of Dubreuilville in the north to the town of Bruce Mines and includes the City of Sault Ste. Marie and the Township of Chapleau.

The IESO will host a webinar on Thursday, December 11 at 10:00 a.m. to share the detail analysis of the region's electricity infrastructure needs and will provide an overview of the wire and non-wire options that will be considered to meet the needs. [We encourage you to register in advance.](#)

Materials, including a presentation and feedback form, will be made in advance of the webinar. Written feedback will be welcome until Friday, January 30, 2025. All interested parties are invited and encouraged to participate including, but not limited to, Indigenous communities, local municipalities, businesses, stakeholders, and members of the general public.

For more information, please visit the [East Lake Superior Engagement Webpage](#) or the [Regional Electricity Planning Process](#) webpage.

Kind regards,
Jessica Singh
