

# East Regional Electricity Forum

Wednesday March 11, 2020

## UPDATE

### WEBINAR OR TELECONFERENCE ONLY

#### Agenda

Meeting objective: Convene the newly established East Regional Electricity Network and provide information to support and build upon an ongoing dialogue on issues of interest to the communities within Eastern Ontario.

1 p.m.	<b>Opening Remarks</b> Simon Chapelle IESO Board of Directors	
1:05 p.m.	<b>Introduction to the regional electricity networks</b> Susan Harrison, Supervisor, Regional & Community Engagement, IESO	<i>Learn about the newly launched regional electricity networks.</i>
1:15 p.m.	<b>Overview of IESO and Ontario's electricity system</b> Terry Young, Vice President, Policy, Engagement & Innovation, IESO	<i>This session will provide an overview of IESO system and market operations and how the IESO's work in energy efficiency and innovation are driving changes in planning the electricity system at the provincial, regional and local level.</i>
1:45 p.m.	<b>Provincial electricity planning – Update</b> Chuck Farmer, Senior Director, Planning, IESO	<i>This session will provide an update on the current status of Ontario's electricity plans and seek input on ways the East Regional Electricity Network might stay informed or contribute to future planning.</i>
2:15 p.m.	<b>Assessing resources to meet Ontario's electricity needs</b> Michael Risavy, Manager, Reporting & Economic Analysis, IESO	<i>The IESO performs economic assessments for determining low cost solutions to meet electricity needs. Get a behind-the-scenes look at how the IESO considers the many options available, ensuring that the most cost-effective solutions are implemented.</i>
2:40 p.m.	<b>Break</b>	

## East Regional Electricity Network

2:45 p.m.	<p><b>East regional electricity planning update – Panel</b></p> <p>Moderator: Jordan Penic, Senior Manager, Engagement and Indigenous Relations, IESO</p> <p>Panelists:</p> <ul style="list-style-type: none"> <li>- Bob Chow, Director, Transmission Planning, IESO</li> <li>- David Roewade, Climate Leadership Program Manager, City of Kingston</li> <li>- Paul Norris, President, Ontario Waterpower Association</li> <li>- Mike Fletcher, Project Manager, Climate Change and Resiliency Unit, City of Ottawa</li> </ul>	<p><i>Planning the electricity system for Eastern Ontario is a collaborative effort. Learn about planning efforts for this part of Ontario and hear from community leaders about local energy projects and solutions. Join the discussion to share your ideas about what is needed to explore alternative solutions for your region's future local energy needs.
