Subject: IESO Engagement | GTA East Regional Electricity Planning
Date: April 1, 2025 2:32:45 PM

Regional electricity planning has kicked off in the GTA East region to ensure a reliable supply of electricity and support local growth and development. Regional planning looks at the unique needs of each region and considers wire and non-wire options and innovative resources to meet the needs. The GTA East electrical region encompasses the Regional Municipality of Durham and the municipalities of Pickering, Ajax, Whitby, Oshawa and parts of Clarington, Scugog and Uxbridge.

The IESO-led regional planning process involves determining the most appropriate planning approach going forward to meet electricity needs through a scoping assessment. The IESO has posted the [draft Scoping Assessment Outcome Report](#) and a [narrated video presentation](#) summarizing the key details on the [GTA East engagement webpage](#). The IESO is accepting feedback via the [feedback form](#) until April 15, 2025 to engagement@ieso.ca.

Visit our website to learn more about the [GTA East region](#) or for more information about the [Regional Electricity Planning Process](#).

To stay informed about electricity planning in GTA East, please [subscribe](#) for updates. Thank you for your continued interest in this study.
