IESO Webinar | GTA West Regional Electricity Planning

From IESO Community Engagement <communityengagement@ieso.ca>

Date Tue 2026-10-13 11:25 AM

To IESO Community Engagement <communityengagement@ieso.ca>

Regional electricity planning continues to advance for the GTA West region to ensure a reliable supply of electricity and support local growth and economic development. This region generally encompasses the municipalities of Brampton, Caledon, Mississauga, Halton Hills, Milton, Oakville, and Burlington, and the regional municipalities of Halton and Peel.

An Integrated Regional Resource Plan (IRRP) is being developed to address the region's unique needs and will consider a range of options and resources to meet future electricity demand. Your input will help inform all aspects of this process. On **Monday, November 2, from 1:30 p.m. to 3:00 p.m.**, the IESO will host a webinar to share updates on the detailed options analysis and seek input on the draft recommendations to meet this region's electricity needs. [We encourage you to register in advance.](#)

Materials, including the presentation and feedback form, will be available in advance of the webinar, and written comments will be accepted until Monday, November 16, 2026. Visit our website to learn more about the [GTA West Region](#) and the [regional electricity planning process](#). All interested parties are invited and encouraged to participate including, but not limited to, Indigenous communities, local municipalities, businesses, stakeholders and members of the general public.

Sincerely,

Sari Gerwitz
