Subject: Final Planning Documents Posted for Greater Ottawa Region

The final Greater Ottawa Scoping Assessment Outcome Report is now [posted](#). The Report details the need for a coordinated regional planning approach and development of an electricity plan – Integrated Regional Resource Plan (IRRP) – for the Ottawa area sub-region.

The Ottawa Regional Electricity Planning [engagement webpage](#) is the source of information related to these regional electricity planning activities, including the feedback received following the February 14 engagement webinar and the [IESO's response to the feedback](#). Engagement will continue throughout the development of the plan with more details to follow. The IESO looks forward to further engagement with communities and stakeholders on the development of an IRRP for the Ottawa area sub-region.

For more information about the regional electricity planning process, please visit <http://www.ieso.ca/en/get-involved/regional-planning/about-regional-planning/how-the-process-works>
