Subject: Register for Electricity Planning Webinar for the City of Ottawa - May 24
Date: May 2, 2024 3:34:17 PM

Regional electricity planning is underway for the [City of Ottawa](#) to ensure a reliable supply of electricity and support local growth and economic development.

An Integrated Regional Resource Plan (IRRP) will be developed, looking at the unique needs of the area, and will consider options and innovative resources to meet future needs. Your input will inform all aspects of this process.

On Friday, May 24 at 10:00 a.m., the IESO will host a webinar to provide an overview of the regional electricity planning process, and seek your feedback on draft electricity demand forecast scenarios and our proposed engagement plans over the coming months.

REGISTER to participate in the May 24 webinar. Materials will be available in advance and written comments will be welcome until June 14, 2024. Upon registration, you will receive an email confirmation containing a calendar invitation with meeting details. **We encourage you to save this invitation to your calendar to ensure you have the access details for the event.**

Visit our website to learn more about this [engagement](#) and for more information about the [regional electricity planning process](#).

All interested parties are invited and encouraged to participate including, but not limited to, local municipalities, Indigenous and Métis communities, businesses, stakeholders and members of the general public.

Regards,

Jessica Singh
