**Subject:** IESO Webinar | Ottawa Area Regional Electricity Planning  
**Date:** December 2, 2024 10:41:20 AM

---

Regional electricity planning is underway for the [Ottawa Area Sub-Region](#) to ensure a reliable supply of electricity and support local growth and economic development. This region generally encompasses the City of Ottawa.

On Thursday, December 12 at 10:00 a.m., the IESO will host a webinar and share the analysis of Ottawa's electricity needs and seek your feedback on the potential wire options. During the webinar, the IESO will also share details regarding a local achievable potential study that will identify and quantify electricity energy savings potential, electricity demand savings potential and associated costs attainable through energy efficiency and behind-the-meter distributed energy resources in the City of Ottawa.

[Register to participate in the webinar](#). Presentation materials will be made in advance of the webinar. Written comments will be welcome until Thursday, January 2, 2025.

For more information, visit the [Ottawa Area Engagement Webpage](#) or the [Regional Electricity Planning Process](#) webpage.

Regards,  
Jessica Singh
