Regional Electricity Planning in the North of Dryden Addendum – July 30, 2025

Feedback Provided by:

Name: David Ewing

Title: VP Sustainability & External Affairs

Organization: Frontier Lithium

Email: [REDACTED]

Date: 2025-08-13

To promote transparency, feedback submitted will be posted on the North of Dryden Addendum [engagement webpage](#) unless otherwise requested by the sender.

Following the North of Dryden Addendum regional planning webinar held on July 30, 2025, the Independent Electricity System Operator (IESO) is seeking feedback on the results of the options analysis and draft recommendations. A copy of the presentation as well as recording of the session can be accessed from the [engagement web page](#).

Please submit feedback to engagement@ieso.ca by August 13, 2025.

Topic	Feedback
What feedback do you have regarding the results of the detailed options analysis?	Frontier appreciates the thoughtfulness behind the options proposed and the emphasis on value to Ontarians. The proposed timelines, though standard for IESO, pose challenges for near term projects being developed.
What feedback do you have on the draft recommendations?	Frontier is supportive of Option 3, the Double Circuit for the following reasons: it resolves the issue of the aging E4D and E2R lines, it increases the reliability and resilience of transmission to the Watay Transmission Line north of Red Lake and enables more load.
How can the IESO continue to engage with communities and stakeholders as these recommendations are implemented, or to help prepare for the next planning cycle?	Click or tap here to enter text.
