## Northeastern Ontario Electricity Planning Webinar #2 – September 13, 2022

### Feedback Provided by:

- Name: Konstantin Heinzelmann
- Title: Director/CEO
- Organization: PNE Canada
- Email: [REDACTED]
- Date: 04-Oct-2022

To promote transparency, feedback submitted will be posted on the [Northeast Bulk Planning engagement webpage](#) unless otherwise requested by the sender.

- Following the September 13, 2022 engagement webinar, the Independent Electricity System Operator (IESO) is seeking feedback on the options considered to meet emerging needs and provide a foundation for future growth in Northeast Ontario and draft recommendations. The webinar presentation and recording can be accessed from the [engagement web page](#).
- **Please submit feedback to [engagement@ieso.ca](mailto:engagement@ieso.ca) by October 4, 2022.** If you wish to provide confidential feedback, please submit as a separate document, marked "Confidential". Otherwise, to promote transparency, feedback that is not marked "Confidential" will be posted on the engagement webpage.

Topic	Feedback
What feedback do you have regarding the draft recommendations?	PNE Canada agrees that a more resilient transmission and distribution network is required; however, we question that localized NWA's would only benefit particular load, as stated in the IESO's conclusions. PNE Canada recommends expanding the IESO's analysis with updated information on the potential of wind and solar power generation technologies.
What other information should be considered in finalizing the recommended solutions and final report?	PNE Canada encourages transparency in economic evaluations based on present indicators when assessing the true value of non-wire alternatives.
How can the IESO continue to engage with the community as these recommendations are implemented, or to help prepare for future bulk and regional planning work?	PNE Canada supports the IESO's continued efforts on open dialogue, engagement, and constructive feedback with the industry.

## General Comments/Feedback

- PNE Canada welcomes the IESO's engagement and discussion on the Northeast Bulk Electricity Planning initiatives. PNE Canada believes in resilient infrastructure design with open access for a strong renewable energy component.
