**To:** IESO Engagement  
**Subject:** Save the Date: Northwest Regional Planning Discussion on April 25

This email is to provide you with a quick update on the Northwest regional electricity planning initiative and to make you aware that the IESO will be hosting a webinar on April 25 at 10:00 a.m. to further engage with you.

The IESO and members of the Technical Working Group have continued work to finalize demand forecast scenarios and identify areas of future needs for this planning region. This work has taken into account the comments and feedback we heard during our engagement discussions last November. On April 25, the webinar will provide attendees with an overview of needs in the Northwest region and seek your early input to inform any options that may be considered.

[Registration for the webinar is now available](#), and materials will be provided in advance. (Note: Upon registration, you will receive an email confirmation containing a calendar invitation with meeting details. **Please save this invitation to your calendar to ensure you have access to the details for the event.**) In the meantime, visit the Northwest Regional Planning engagement [webpage](#) for information about this planning initiative and all the engagement activities to date.

Sincerely,  
Susan Harrison  
IESO Community Engagement & Customer Outreach
