Subject: IESO Engagement | Peterborough to Kingston Regional Electricity Planning
Date: April 2, 2025 8:48:43 AM

Regional electricity planning has kicked off in the Peterborough to Kingston region to ensure a reliable supply of electricity and support local growth and development. Regional planning looks at the unique needs of each region and considers wire and non-wire options and innovative resources to meet the needs. The Peterborough to Kingston electrical region encompasses the Cities of Belleville, Kingston, Peterborough, Quinte West, Prince Edward County, the Municipality of Clarington in the Region of Durham, and the Counties of Hastings, Lennox and Addington, Northumberland, and Peterborough.

The IESO-led regional planning process involves determining the most appropriate planning approach going forward to meet electricity needs through a scoping assessment. The IESO has posted the [draft Scoping Assessment Outcome Report](#) and a [narrated video presentation](#) summarizing the key details on the [Peterborough to Kingston engagement webpage](#). The IESO is accepting feedback via [the feedback form](#) until April 15, 2025, to engagement@ieso.ca. Visit our website to learn more about the [Peterborough to Kingston region](#) or for more information about the [Regional Electricity Planning Process](#).
