Regional Electricity Planning in the Peterborough to Kingston Electrical Region – October 2, 2025

Feedback Provided by:

Name: Stephen Paul

Title: Director, Community and Development Services

Organization: Lennox and Addington County

Email:

Date: September 8, 2025

To promote transparency, feedback submitted will be posted on the Peterborough to Kingston Electrical Region [engagement webpage](#) unless otherwise requested by the sender.

Following the Peterborough to Kingston electricity planning municipal focused discussions held on Thursday September 4, 2025, and Friday September 5, 2025, the Independent Electricity System Operator (IESO) is seeking feedback on the draft electricity demand forecast scenarios and the proposed engagement plan.

Local considerations and feedback are a critical component of planning work completed by the IESO. As this electricity planning work continues the IESO wants to hear from you.

Please submit feedback to engagement@ieso.ca **by October 2, 2025.**

Peterborough to Kingston Regional Planning

Feedback shared in the below table will be shared publicly, unless otherwise noted.

| Topic | Feedback |
|---|---|
| What additional information, if any, should be incorporated in the proposed scenarios? | I oversee Economic Development in Lennox and Addington County. Over the past three years we have had large manufacturing projects / investment inquiries for both Napanee and Loyalist Township. In all cases, an expansion of the electrical infrastructure was required to service the manufacturer. This results in substantial costs and time for the business. We are hoping that employment land availability / opportunities are considered in regional planning. While we have substantial industrial land available, the current electrical infrastructure does not support manufacturing or data centres. |
| How can the proposed scenarios best capture the range and uncertainty of growth potential while informing near-term infrastructure investments? | Click or tap here to enter text. |
| What areas of concern or interest about electricity should be considered as part of the planning process? | Click or tap here to enter text. |
| What information is important to provide throughout the engagement? Does the proposed Engagement Plan provide sufficient scope and opportunities for input? What other engagement activities or methods should be considered? | Click or tap here to enter text. |
