uncertainty of growth potential while informing near-term infrastructure investments?	will be met over the next 30 years. Participation in Master Plan and planning work by these municipalities is appreciated. Scenarios should be based upon growth projections from each municipality and those municipalities budgeting for other associated infrastructure which informs on timelines for when new development will occur.
What areas of concern or interest about electricity should be considered as part of the planning process?	Significant growth change within the Barrie and southern Simcoe area. Seeking to ensure development timelines for 20,000 additional homes and 150,000 employment gains can be accommodated for within service and generation capacities.
What information is important to provide throughout the engagement? Does the proposed Engagement Plan provide sufficient scope and opportunities for input? What other engagement activities or methods should be considered?	Land Needs, Project Timelines, Reaffirm a commitment to engage with noted parties. Maintain momentum and action to ensure continued interest and buy in

General Comments/Feedback

Appreciate the opportunity to hear from the IESO and continue to work with our service partners, HydroOne, Innpower and Alectra in seeking a simplified local delivery partnership (one local transmission partner) and continued upgrades to servicing to support planned growth in Barrie.
