Regional Electricity Planning in Sudbury/Algoma – July 16, 2026

Feedback Provided by:

Name: Ronny Theiss

Title: Manager of Public Works

Organization: The Corporation of the Municipality of Markstay-Warren

Email: [REDACTED]

Date: July 20, 2026

To promote transparency, feedback submitted will be posted on the [Sudbury/Algoma engagement webpage](#) unless otherwise requested by the sender.

Following the Sudbury/Algoma electricity planning engagement webinar held on July 16, 2026, the Independent Electricity System Operator (IESO) is seeking your feedback on the draft electricity demand forecast scenarios and the proposed engagement plan. A copy of the presentation and the recording of the session can be accessed from the [engagement web page](#).

Please submit feedback to engagement@ieso.ca by July 31, 2026.

Topic	Feedback
What additional information, if any, should be incorporated in the proposed scenarios? How can the proposed scenarios best capture the range and uncertainty of growth potential while informing near-term infrastructure investments?	The range seems to be focused on the larger city centers. Our small Municipality is interested in both significant growth and opportunities for energy projects to tie to the grid. At this point we don't have a solid handle on community growth opportunities or ability to provide power to the grid.

Topic	Feedback
What areas of concern or interest about electricity should be considered as part of the planning process?	The biggest area of concern in our area is capacity, both current and future. At this point it appears we should have quite a bit.
What information is important to provide throughout the engagement?	An open line of communication as information becomes available is most useful for us.
Does the proposed Engagement Plan provide sufficient scope and opportunities for input?	Yes.
