To promote transparency, feedback submitted will be posted on the [Windsor-Essex engagement web page](#) unless otherwise requested by the sender.

Following the Windsor-Essex regional electricity planning webinar held on April 19, 2023, the Independent Electricity System Operator (IESO) is seeking feedback on the draft Scoping Assessment Outcome Report posted on the IESO's [website](#). The draft report and webinar presentation, which provides an overview of these feedback requests, can be accessed from the [engagement webpage](#).

Please submit feedback to engagement@ieso.ca by May 3, 2023. If you wish to provide confidential feedback, please submit as a separate document, marked "Confidential". Otherwise, to promote transparency, feedback that is not marked "Confidential" will be posted on the engagement webpage.

Topic	Feedback
What additional information should be considered as part of the Scoping Assessment?	Behind the meter solar in greenhouses as a means to reduce load. Behind the meter solar using greenhouse integrated modules where energy is not put back into the grid should be considered an energy efficiency measure
What other considerations should be made regarding the areas identified as requiring further study through a regional planning approach based on local developments?	
What other areas or specific considerations should be examined through regional planning?	The potential for microgrids
