**Subject:** Posting of Final Regional Electricity Planning Document for Windsor-Essex

The final [Windsor-Essex Scoping Assessment Outcome Report](#) is now posted following a two-week comment period with the IESO's [responses to feedback](#) received.

The report specifies the need for a comprehensive integrated regional resource plan (IRRP) and includes a terms of reference that outlines the timing and details of the work to develop a 20-year electricity plan for the region. Engagement will continue throughout the development of the IRRP with more details to follow. Ongoing information related to the Windsor-Essex regional electricity planning activities, including any upcoming engagement opportunities will be provided on the dedicated [engagement webpage](#).

The IESO looks forward to continuing to engage with communities and stakeholders on this electricity planning initiative.
