Subject: IESO Webinar | Windsor-Essex Regional Electricity Planning

Regional electricity planning is underway for the [Windsor-Essex](#) electrical region to ensure a reliable supply of electricity, and to support local growth and economic development. Regional planning looks at the unique needs of each region, and considers options and innovative resources to meet the needs.

The Windsor-Essex electrical region generally encompasses the area from the City of Windsor and the Town of Amherstburg going east towards the western part of the Municipality of Chatham-Kent. In this region, an Integrated Regional Resource Plan (IRRP) will be developed, and your input will inform this important work.

On Tuesday, December 12 at 10:00 a.m., the IESO will host a webinar to provide an overview of the regional electricity planning process, and seek your feedback on the draft electricity demand forecast scenarios and the proposed engagement plan.

[REGISTER](#) to participate in the December 12 webinar. Materials will be available in advance and written comments will be welcome until January 5, 2024. Upon registration, you will receive an email confirmation containing a calendar invitation with meeting details. **We encourage you to save this invitation to your calendar to ensure you have the access details for the event.**

Visit our website to learn more about the [Windsor-Essex](#) region and the [regional electricity planning process](#).

All interested parties are invited and encouraged to participate including, but not limited to, local municipalities, Indigenous and Métis communities, businesses, stakeholders and members of the general public.

Regards,

Andreea
