Re: Clarifications to the Market Rules (Omnibus 2021)

Attached for Technical Panel review and consideration is the market rule amendment package MR-00449 which proposes a number of amendments to the market rules. This year's package includes five different proposals, two of which may not be formally considered 'minor amendments', but are not expected to change market participant obligations. Inclusion of these two proposals into this omnibus will reduce the number of amendment submissions TP members will have to review in the future.

Recommendation- Priority

The IESO recommends that the Technical Panel assign a regular priority to the review of the amendment.

Panel Action and Next Steps

The IESO recommends that the Technical Panel determine that the amendment submission warrants consideration as the changes meet the following criteria;

1. They identify errors within the market rules; and
2. They identify ambiguity or confusion within the market rules.

The IESO further recommends that the Technical Panel votes to post MR-00449-R00-R04 for stakeholder review and comment for a period of two weeks, ending on July 15, 2021.
