

PROCEDURE

---

**Market Manual 5: Settlements**  
**Part 5.10: Settlement**  
**Disagreements**

---

**Issue 0.1**

This procedure provides information required by the *IESO* and *market participants* to prepare and process settlement *invoices* for the *physical markets* administered by the *IESO*.

## Disclaimer

The posting of documents on this Web site is done for the convenience of *market participants* and other interested visitors to the *IESO* Web site. Please be advised that, while the *IESO* attempts to have all posted documents conform to the original, changes can result from the original, including changes resulting from the programs used to format the documents for posting on the Web site as well as from the programs used by the viewer to download and read the documents. The *IESO* makes no representation or warranty, express or implied, that the documents on this Web site are exact reproductions of the original documents listed. In addition, the documents and information posted on this Web site are subject to change. The *IESO* may revise, withdraw or make final these materials at any time at its sole discretion without further notice. It is solely your responsibility to ensure that you are using up-to-date documents and information.

This *market manual* may contain a summary of a particular *market rule*. Where provided, the summary has been used because of the length of the *market rule* itself. The reader should be aware, however, that where a *market rule* is applicable, the obligation that needs to be met is as stated in the “Market Rules”. To the extent of any discrepancy or inconsistency between the provisions of a particular *market rule* and the summary, the provision of the *market rule* shall govern.

# Market Manuals

---

The *market manuals* consolidate the market procedures and associated forms, standards, and policies that define certain elements relating to the operation of the *IESO-administered markets*. Market procedures provide more detailed descriptions of the requirements for various activities than is specified in the *market rules*. Where there is a discrepancy between the requirements in a document within a *market manual* and the *market rules*, the *market rules* shall prevail. Standards and policies appended to, or referenced in, these procedures provide a supporting framework.

# Market Procedures

---

The “Settlements Manual” is Volume 5 of the *market manuals*, where this document forms “Part 5.10: Settlement Disagreements”.

A list of the other component parts of the “Settlements Manual” is provided in “Part 5.0: Settlements Overview”, in Section 2, “About This Manual”.

## Structure of Market Procedures

Each market procedure is composed of the following sections:

1. “**Introduction**”, which contains general information about the procedure, including an overview, a description of the purpose and scope of the procedure, and information about roles and responsibilities of the parties involved in the procedure.
2. “**Procedural Work Flow**”, which contains a graphical representation of the steps and flow of information within the procedure.
3. “**Procedural Steps**”, which contains a table that describes each step and provides other detail related to each step.
4. “**Appendices**”, which may include such items as lists of forms, standards, policies, and agreements.

## Conventions

The *market manual* standard conventions are defined in the “Market Manual Overview” document. In this document, “we” and “us” refers to the *IESO*; “you” refers to *market participants* unless specifically identified otherwise.

– End of Section –

# 1. Introduction

---

## 1.1 Purpose

This procedure describes the process for *market participants* to make queries and initiate disagreements in regards to *settlement statements* for the *physical markets* and *financial market*.

- For the purposes of this procedure, all references to the *physical market* refer to: *the real-time market for energy*, which consists of:
  - a market for *energy*; and
  - a market for several classes of *operating reserve*;
- *procurement markets*, which consists of:
  - markets for *contracted ancillary services*, including: *reactive support* and *voltage control*, *regulation service* and *black start capability*;
  - a market for *reliability must-run contracts*; and
- the *transmission rights (TR)* market, except for *settlement amounts* relating to the purchase or sale of a *transmission right* in any round of a *TR auction*.

For the purposes of this procedure, all references to the *financial markets* refer to:

- *settlement amounts* relating to the purchase or sale of a *transmission right* in any round of a *TR auction*

## 1.2 Scope

This procedure is intended to provide *market participants* with a summary of the steps and interfaces between *market participants* and the *IESO* in regards to disagreements that *market participants* may have in respect of their *settlement statements*.

The procedures related to the issuance and retrieval of *settlement statements* are provided in “Market Manual 5: Settlements, Part 5.7: Settlement Statements”. The procedures related to the dispute resolution process are provided in “Market Manual 2: Market Administration, Part 2.1: Dispute Resolution”.

## 1.3 Roles and Responsibilities

Responsibility for *settlement statements* is shared among:

- *market participants*, who are responsible for:
  - making queries pertaining to *settlement statement* files and companion data files; and
  - identifying errors in the *settlement statements* and data files and providing a *notice of disagreement*.
- the *IESO*, which is responsible for:
  - responding to queries received from the *market participants* pertaining to the issued *settlement statement* files and companion data files;
  - investigating and responding to a *notice of disagreement* received from a *market participant*;
  - applying adjustments as required to the *settlement statement* files and companion data files;

- dealing with inquiries related to adjustments as shown in *settlement statements*.

## 1.4 Contact Information

As part of the participant authorization and registration process, applicants identify contacts within their organization that address specific areas of market operations. For real-time *energy settlement statements*, this contact will most likely be the *Settlements Statements Market Contact Type* as indicated by Registration in the MPI (MP Contacts screens). If you have not identified a specific contact, we will try to contact the ‘main contact’ identified during the participant authorization process.

We will try to contact these individuals for activities within this procedure, unless alternative arrangements have been set up between us and the *market participant*. For more information on MPI Registration and the participant authorization process, see “Market Entry, Maintenance and Exit, Part1.1-Participant Authorization Maintenance and Exit”.

If you wish to contact us, you can reach our *Customer Relations* department at [customer.relations@ieso.ca](mailto:customer.relations@ieso.ca) or via telephone, mail or courier to the numbers and addresses on our web site ([www.ieso.ca](http://www.ieso.ca)- or click on 'Have a question?' to go to the 'Contacting the IESO' page). If *Customer Relations* is closed, you can leave telephone messages or emails, which will be answered as soon as possible by Customer Relations staff.

Appendix A lists the forms you need for this procedure – most forms are available on our web site. Please send signed forms and supporting documentation to us by mail or courier, using the address on our web site or on the form. Please identify the subject as: **Settlements Statements**.

## 1.5 Submitting Queries

If a *market participant* has any questions about a *settlement statement* and/or its companion data files, the *market participant* may submit queries to the *IESO* regarding the *settlement statement* and/or its companion data files (see Section 1.4 above for contact information). The *IESO* will endeavor to provide a response within 2 *business days*.

Please note that all queries about the contents of your *settlement statement* and/or its companion data files are only requests for information. Such queries are not considered to be any formal disagreement with the contents of the *settlement statement* and/or its companion data files. Therefore, the *IESO* will not modify your *settlement* files in response to a query.

The *IESO* will only discuss *settlement statements* queries with contacts registered as the “Settlement Data File Submitter” contact role in Online *IESO*.

## 1.6 Overview of the Disagreement and Dispute Channels

This procedure covers the following topics that comprise the *settlement statements* process:

- summary of all of the disagreement/dispute channels;
- steps to submit a *notice of disagreement*; and
- the resolution of a *notice of disagreement*.

### 1.6.1 Market Participant Validation of Settlement Statements

*Market participants* are, pursuant to the *market rules*, required to review their *settlement statements* to ensure they are correct. A failure to identify an error or omission within the required timeframe may result in losing any potential recourse in regards to such error or omission. *Market participants* bring such issues to the *IESO*'s attention by submitting a *notice of disagreement*.

A *market participant* may submit a *notice of disagreement* in respect of the following matters:

- For a *preliminary settlement statement*, a *market participant* may submit a *notice of disagreement* for any *settlement amounts* with which it disagrees.
- For a *final settlement statement* or a *recalculated settlement statement*, other than a *final recalculated settlement statement*, a *market participant* may only submit a *notice of disagreement* for:
  - items or calculations that are new (i.e. an item with a settlement type of ‘P’); or
  - an adjustment to an item or calculation that appeared on a previous *settlement statement* (i.e. an item with a settlement type of ‘A’)

For greater certainty, if a *market participant* disagrees with a new item or adjustment contained on a *final recalculated settlement statement*, it should pursue the matter through the dispute resolution process outlined in Chapter 3 of the *market rules*.

*Market participants* may not submit a *notice of disagreement* regarding the matters listed in section 6.8.12 of Chapter 9. Some of these matters, including those identified in section 6.8.12.4 and matters described in the processes outlined in section 10.4 of Chapter 6 and section 6C of Chapter 10, are still subject to the dispute resolution process outlined in Chapter 3. Other matters, including the

calculation of prices listed in section 6.8.12.8 and matters which are subject to the *notice of disagreement* process but the *market participant* missed the timeframe to initiate such a process, are not subject to the dispute resolution process outlined in Chapter 3.

In some cases, an item or calculation in the *final settlement statement* or *recalculated settlement statement* may either:

- consist of an adjustment to a previously issued *settlement statement* as a result of a *notice of disagreement*, but the adjustment does not properly reflect the final resolution of such *notice of disagreement* as communicated to the *market participant*; or
- differ in amount from the same item or calculation set forth on a previously issued *settlement statement*, but the item or calculation on the new *settlement statement* does not have an adjustment flag indicating that an adjustment has been made.

In such cases, the *market participant* may attempt to resolve the disagreement with the *IESO* on an informal basis, separate from the formal *notice of disagreement* process. If the *IESO* cannot resolve the disagreement, the *market participant* may submit the matter to the dispute resolution process outlined in Chapter 3 of the *market rules*.

## 1.6.2 IESO Validation of Settlement Statements

Section 6.9 of Chapter 9 of the *market rules* outlines the process by which the *IESO* can address material errors within an *IESO* system or *settlement process* which results in *settlement amounts* being calculated incorrectly. This process does not alleviate a *market participant's* responsibility to review and identify any errors in its *settlement statements* and is intended to capture those issues which a *market participant* would not have been reasonably able to identify on their own.

If the *IESO* identifies any such errors that warrant correction, such corrections will appear on a *market participants' settlement statement(s)*. If a *market participant* has any questions in regards to such adjustment, they may submit a *settlement statement query* in accordance with section 1.5 above. If a *market participant* disagrees with any such adjustment on a *settlement statement*, other than in respect of a *final recalculated settlement statement*, they may submit a *notice of disagreement* in regards to the adjustment, in accordance with Section 1.6.1.

If a *market participant* disagrees with such an adjustment contained on a *final recalculated settlement statement*, it should pursue the matter through the dispute resolution process outlined in Chapter 3 of the *market rules*.

## 1.6.3 Metering Corrections

Section 10.4 of Chapter 6 and section 6C of Chapter 10 contain the identification and correction of errors in metering data and other meter related information.

If a *market participant* disagrees with an adjustment to its *settlement statement* as a result of these processes, it should pursue the matter through the dispute resolution process outlined in Chapter 3 of the *market rules*. For greater clarity, the *market participant(s)* interacting with the *IESO* in regards to Section 10.4 of Chapter 6 or section 6C of Chapter 10, as the case may be, should pursue any disagreement through the dispute resolution process, while other *market participants* that may be impacted by an adjustment as a result of such processes may submit a *notice of disagreement* in regards to such adjustments.

## 1.7 Submitting a Notice of Disagreement

If a *market participant* disagrees with a *settlement amount* on a *settlement statement*, other than in respect of a *final recalculated settlement statement*, it may submit a *notice of disagreement*. *Notices of disagreement* must be submitted within two *business days* after the *settlement statement* has been issued in respect of the *financial market* and within six *business days* after the *settlement statement* has been issued in respect of the *physical market*, subject to any additional time resulting from *settlement statement* delays or a failure to access a *settlement statement* as determined in accordance with market manual 5.7<sup>1</sup>. For greater clarity, *notice of disagreements* relating to a *settlement statement* issued in the *physical market* for a *trading day* prior to November 1, 2022 must be submitted within four *business days* after the applicable *settlement statement*.

To submit a *notice of disagreement*, all required sections of the *notice of disagreement* form available through Online IESO must be completed<sup>2</sup>. *Market participants* are encouraged to provide as detailed information as possible in the *notice of disagreement* form, as incomplete submissions may result in a delay in processing the *notice of disagreement*.

The *notice of disagreement* form available through Online IESO can be accessed by the *market participant's notice of disagreement* contact(s) registered in Online IESO.

A *notice of disagreement* may only pertain to one item (or issue). For example, a disagreement about generation cost guarantee and RSVC (reactive support and voltage control) during the same trading period must be submitted as two separate *notices of disagreement*, so that the IESO can investigate each item or issue. However, when a *notice of disagreement* pertains to input data for multiple *dispatch intervals* on the same *trading day*, only one *notice of disagreement* is required.

The *notice of disagreement* must contain the proposed resolution and supporting documentation.

- a *notice of disagreement* that pertains to “Settlement Amount Adjustments Resulting from Administration of Prices Due to Failure or Planned Outages of Market Systems or Due to Publication of Incorrect Prices”<sup>3</sup> must include, as an attachment, a completed IMO\_FORM\_1549 “Administrative Pricing Event Correction”.
- For other issues, a *market participant* may provide the proposed correction and supporting documentation as an attachment to the *notice of disagreement* form. The attachment may be in the form of a table or spreadsheet. Table 1-1: “Data Requirement for Notice of Disagreement Submission” provides a template for the data that may be included for specified *notice of disagreement* issues. If the information provided in the *notice of disagreement* is incomplete or invalid, the *notice of disagreement* processing may be delayed.

**Table 1–1: Data Requirement for Notice of Disagreement Submission**

Notice of Disagreement Issue Type	Data Requirements	IESO Data	Participant Data
<i>Physical Bilateral Contract</i> (PBC)	Seller’s <i>Market Participant</i> ID

Samples of the Online IESO *notice of disagreement* form appear in Appendix B. *Market participants* must send supporting materials as attachments to their *notice of disagreement* when submitting it through Online IESO.

An e-mail confirmation will be sent upon receipt of a *notice of disagreement*. The email will include a unique identifier for the submission and a date and time stamp of when the *notice of disagreement* was received. *Market participants* can check the status and the history of their *notice of disagreement*, provide additional information requested by the IESO and respond to decision notification through the Online IESO *notice of disagreement* form.

*Market participants* must settle an *IESO invoice* regardless of whether they have raised a *notice of disagreement* against a *settlement statement* addressed by that *invoice*<sup>4</sup>.

## 1.8 Resolving a Notice of Disagreement

Following receipt of a *notice of disagreement*, the *IESO* will first validate the *notice of disagreement*. If the *notice of disagreement* does not relate to a matter which is subject to the *notice of disagreement* process or is otherwise not in accordance with the *market rules*, the *IESO* will notify the *market participant* through the Online *IESO notice of disagreement* form that the submitted *notice of disagreement* is rejected.

Once validated, the *IESO* will determine whether affected parties exist and notify them by email of the submitted *notice of disagreement*. For example:

- in regards to *notices of disagreement* relating to *physical bilateral contracts*, the *IESO* will ensure that both the *buying market participant* and the *selling market participant* are aware of the *notice of disagreement*;

The *IESO* will consider submitted *notices of disagreement*, along with any attached supporting materials, and, if necessary, may request clarifications or additional information by sending such request through the Online *IESO notice of disagreement* form. The *market participant* must provide any requested information or clarification within the specified timeframe through the Online *IESO notice of disagreement* form. *Market participants* that fail to provide the requested information within the specified timeframe may have their *notice of disagreement* invalidated.

Once the *IESO* has finished considering the submitted *notices of disagreement*, along with any attached supporting materials and further information or clarifications provided, it will provide notice to the *market participant* and any identified affected parties of the *IESO's* determination and intended resolution. The *market participant* has an opportunity to respond to such notice within 10 *business days* by entering a response in the Online *IESO notice of disagreement* form.

Following consideration of any such responses, the *IESO* will take one of the following actions:

- if the *IESO* determines that no error has occurred in the relevant *settlement statement*, no further action will be taken;
- if the *IESO* determines that an error has occurred, it will make the necessary adjustments on the applicable *settlement statement*, which may be a *final settlement statement*, a *recalculated settlement statement*, or, if it relates to a *trading day* prior to November 1, 2022, a subsequent *preliminary settlement statement*.

If the *market participant* does not agree with the *IESO's* determination on its *notice of disagreement*, the *market participant* may pursue the matter by initiating a dispute through the dispute resolution process described in Chapter 3 of the *market rules*. Disputes initiated in response to the *IESO's* determination on a *notice of disagreement* must be raised within either 20 *business days* after the *settlement statement* reflecting the outcome of the *notice of disagreement* or the *IESO* notifying the *market participant* that no adjustments will be made, as the case may be.

---

<sup>4</sup> See “Part 5.8, Settlement Invoicing” for more details of the invoicing process.

Where the *IESO* requires a long period of time to consider a *notice of disagreement* or the timelines of the *notice of disagreement* process are otherwise approaching the limitation period to initiate a dispute, *market participants* can initiate a dispute to preserve their rights. More specifically, if the *IESO* has not made a determination on a *notice of disagreement* prior to the earlier of (1) the date that is 23 months after the date on which the relevant *trading day* was first *invoiced*; or (2) twelve months after the date the *notice of disagreement* was issued by the *market participant*, the *market participant* may initiate a dispute. In such circumstances, the minimum 30 days' period to engage in good faith negotiations does not commence until the *IESO* has made its determination. The procedures related to the dispute resolution process are provided in "Market Manual 2: Market Administration, Part 2.1: Dispute Resolution".

– End of Section –

# Appendix A

## Forms

---

This appendix contains a list of forms used in the *notice of disagreement* process, which are available on the *IESO* Web site (<http://www.ieso.ca>). The forms included are as follows:
