

Member Vote and Rationale – Transmission Rights Market Enhancement

IESO Technical Panel, February 13, 2024

The vote to recommend the proposed market rule amendments (MR-00479-R00) for consideration to the IESO Board of Directors passed unanimously at the February 13, 2024, Technical Panel meeting.

MR-00479-R00 – Transmission Rights Market Enhancement

TP Member	Vote and/or Rationale
Nick Papanicolaou (Consumer)	For
Indra Maharjan (Consumer)	For
Forrest Pengra (Residential Consumer)	I voted to recommend as I felt MR-00479-R00 had been thoroughly debated, the appropriate edits (editorial, functional, etc...) had been made, and that the greater TP was supportive of the advancement of the rule to the Board of Directors.
Jason Chee-Aloy (Renewable Generators)	For

TP Member	Vote and/or Rationale
Jennifer Jayapalan (Energy Storage)	For
Vlad Urukov (Generator)	As stated by the IESO in a memorandum accompanying the proposed Rule Amendment dated February 6, 2024, the proposed "project was initiated to address the aging Transmission Rights (TR) auction application that had been in place since shortly after market opening, and to introduce TR auction design enhancements that had been requested by stakeholders". I believe the proposed changes benefit the market, are in line with the stated objectives, and have incorporated feedback from the stakeholder community. I also appreciate the IESO's responsiveness in implementing minor clarifications proposed by the Technical Panel. I encourage the IESO to focus on the implementational details of the Transmission Rights Market Enhancements as to ensure that participants understand the new functionality and the new auctions proceed efficiently.
