OPG has the following comments on the proposed market rule amendments for MR-00307: Forecasts and Assessments – Align Market rules with IESO’s Objects Under the Electricity Act, 1998:

Section 8.7.3 of Chapter 10, which is to be deleted, includes a reference to using planned retirement information from generators for the annual report. The obligation for generators to provide this information is contained in section 8.7.4. Now that the annual report is not to be produced by the IESO and given the timing requirements specified in Chapter 7 for the de-registration of facilities, the six month notice for a planned retirement should not be required.
